# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

### Cal OES COASTAL REGION

#### NBA Championship Parade, Oakland, Alameda County (Final)

On 06/12/18 at 1100 hours, the NBA Championship Parade took place in Oakland, Alameda County. [As of 06/12/18 at 1617 hours, the parade is over and the streets are being cleaned.](#)

- The City of Oakland Emergency Operations Center (EOC) [has returned to normal operations.](#)
- One (1) Cal OES Coastal Region Emergency Services Coordinator (ESC) [has demobilized.](#)

### Cal OES INLAND REGION

- [See Fire Activity Slides.](#)

### Cal OES SOUTHERN REGION

#### Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on 06/12/18 at 0718 hours:

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.

#### **Activations**

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

#### **Deployments**

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.
- [See Fire Activity Slides.](#)

# **FIRE ACTIVITY**

Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

**Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.**

## **INLAND REGION**

### **Chrome, Vegetation Fire, Glenn County**

Location: Hwy 162 x Forest Hwy 7, north of Elk Creek

Jurisdiction: State DPA, SRA, Tehama-Glenn Unit

Per Cal OES Duty Officers and ICS-209 as [06/13/18 at 0753 hours](#):

- 2,290 acres, [80% contained](#)
- Expected Containment: 06/14/18
- 1 structure destroyed
- Resources continue to strengthen and patrol containment lines

# FIRE ACTIVITY

## SOUTHERN REGION

### Portola, Vegetation Fire, Los Angeles County

Location: Westwanda Dr. x Benedict Canyon Dr.

Jurisdiction: Local DPA, LRA, Los Angeles City

Start Date/Time: 06/12/18 at 1456 hours

Per the Cal OES Duty Officers as of 06/13/18 at 0819 hours:

- 35 acres, 40% contained
- All CAL FIRE air and ground resources released
- Cal OES Duty Officers are monitoring

### **FMAG**

- On 06/12/18 at 1856 hours, a Fire Management Assistance Grant (FMAG) request was received. As of 06/12/18 at 2100 hours, the FMAG request was denied.

### **Evacuations**

- Per Cal OES Law Branch as of 06/12/18 at 2030 hours, all evacuation orders have been lifted.

### Santiago, Vegetation Fire, Orange County

Location: Highway 241 x Santiago Canyon Rd.

Jurisdiction: Local DPA, SRA, Contract County

Start Date/Time: 06/11/18 at 1704 hours

Per Cal OES Duty Officers and ICS-209 as of 06/13/18 at 0753 hours:

- 155 acres grass, 80% contained
- Resources continue to mop up and strengthen control lines

# MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

Major Road Closures		
Northern California	Central California	Southern California
No Lifeline Route Closures	No Lifeline Route Closures	No Lifeline Route Closures

## Lifeline Routes

- There are no lifeline route closures.

## Non-Lifeline Routes:

- There are no non-lifeline route closures.

## Wildfire Closures:

### San Bernardino County:

- State Route (SR) 71 was closed to northbound traffic at Grand Ave. due to a brush fire. As of 06/12/18 at 2201 hours, the route is open.

## Emergency Center Activations:

- There are no Emergency Center Activations.

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

\*\*\* Hot/dry continues for portions of the region through Today \*\*\*

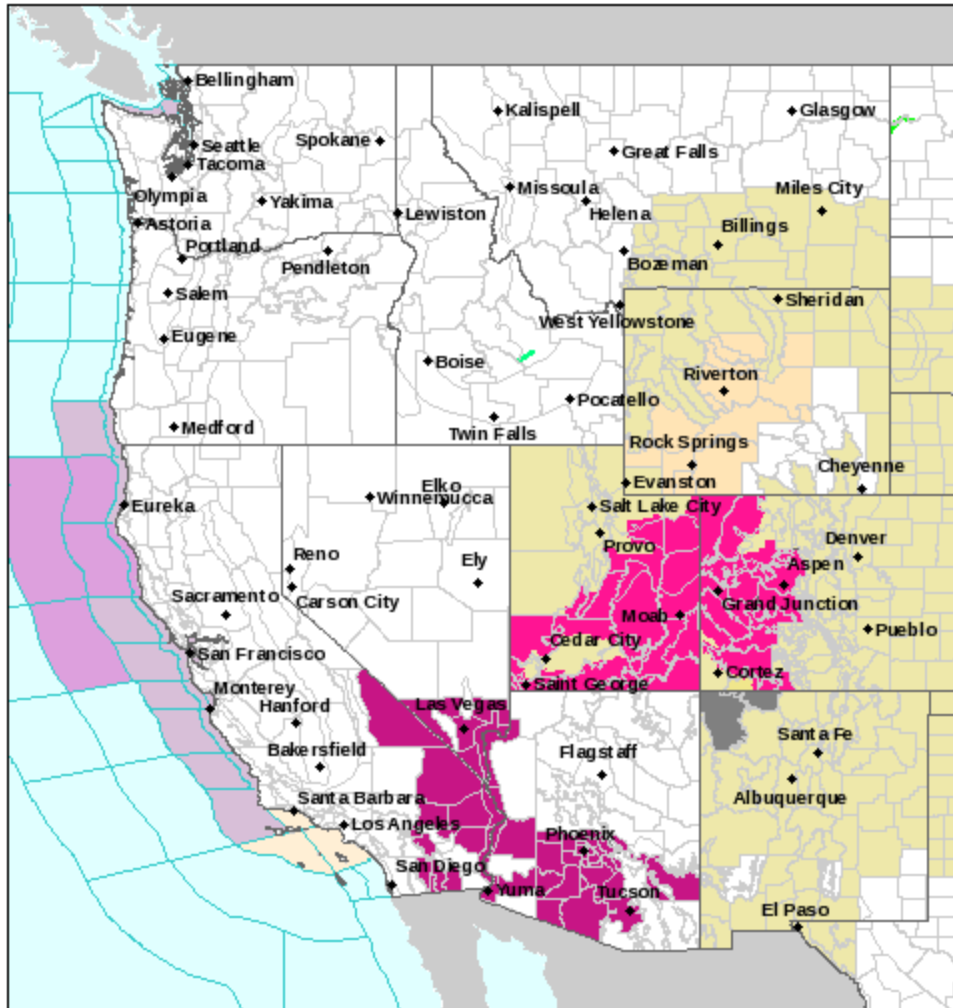

The ridge of high pressure will gradually give way to a Pacific trough starting today and lasting through the weekend and most likely remaining into early next week. Hot and dry conditions, with the exception of along the coast, will remain today although high temps should cool slightly. W-SW winds will increase this afternoon with peak gusts generally 20-25 mph. Humidity values will remain on the lower side across the Sacramento Valley and Far Eastside with readings ranging between 10 to 20% during the afternoon. A northerly wind flow is expected to develop tonight, following the weak frontal passage, and favor the Sacramento Valley each overnight into the weekend. Peak gusts between 15-25 mph are expected during those periods within the Valley. Depending on how the Pacific trough evolves, a slightly stronger northerly flow would be possible during the weekend. Weather models have been showing this Pacific trough/low for the past several days but unfortunately they have been inconsistent on the placement and movement of the low...thus instilling uncertainty in the forecast beyond 3 days. Overall, temperatures should lower while humidity values creep up during the next 5 to 6 days. Afternoon temperatures should be near to a little below normal starting on the weekend and potentially lasting into early next week. The gustier afternoon wind periods occur today and possibly the weekend. Scattered showers and some thunderstorms should impact northern portions of the region, especially NE areas starting Friday night and lasting into early next week. Due to the path of the system, moisture will be somewhat limited.

## **SOUTHERN CALIFORNIA**

Waning high pressure will produce very warm temperatures today, but cooler weather will slowly overspread the area late this week and into the weekend. High temperatures today will be similar to yesterday with afternoon readings ranging from the 70s at the coast to the upper 90s to 103 in the San Joaquin Valley and other interior valleys and foothills. The low desert will be close to 112. There will be a few mid and high level clouds over southern California through Friday which will be too thin to impact temperatures much. After today, onshore flow will increase which will generate windy weather in the mountains and deserts during the afternoon hours. West winds of 25-35 mph will be possible on the Sierra Front Thursday with some gusts to 40 mph possible in the Antelope Valley and Banning Pass each afternoon through the weekend. Temperatures will cool a few degrees beginning Thursday, and by Sunday, temperatures will likely remain in the 80s in the valleys. Moisture from Hurricane Bud will be drawn into the Southwest, the bulk of which will stay east of the region. But a handful of wet thunderstorms will be possible Friday on the desert side of the Cleveland National Forest eastward toward the desert south of highway 62. No further thunderstorm activity is expected through the weekend. A low pressure area may bring some showers and isolated wet thunderstorms to the Sierras north of Yosemite N.P. next Monday or Tuesday. Temperatures will begin to climb again early next week. Most areas are expected to see RH remain in the teens for minimums with good recovery at night.

# Cal OES LAW ENFORCEMENT MISSIONS

## Ongoing Cal OES Law Missions

- **2018-LAW-47160, 06/12/18, 1500 hours:** Originally opened on 06/09/18, Yolo Sheriff's Office (SO) requested to reopen this mission to search the area where mutual aid K9's previously indicated and where excavation is currently in progress. They are requesting 2 HRD K9's for Wednesday, 06/13/18 at 0800 hours or as soon as available. **Update: 06/12/18, 1908 hours:** Cal OES K9 Coordinator secured 2 teams for the search Wednesday. Yolo SO advised. **Mission Ongoing.**

## Closed Cal OES Law Missions

- **2018-LAW-47257, 06/12/18, 2207 hours:** Siskiyou County SO requested a California National Guard (CNG) Helicopter with FLIR capabilities for an immediate response to assist in the search for a 55 year old male with Alzheimer's last seen at 0830 hours, Tuesday, near the river just outside Dunsmuir. The Cal OES Law Duty Officer (LDO) made the request with the CNG/Joint Operations Center (JOC). **Update: 2248 hours:** CNG advised they had no crews available for tonight but could assist in the morning. The request to CNG was canceled as the CHP was able to fly in the morning. Siskiyou SO was notified. No other mutual aid requests were made. **Mission Canceled.**
- **2018-LAW-47245 06/12/18, 1418 hours:** The Air Force Rescue Coordination Center (AFRCC) reported a Personal Locator Beacon (PLB) sounding at coordinates: 37 30.2 N, 122 26.3 W, plotting within a 5 mile radius near a landfill, near El Granada/Miramar/Half Moon Bay, San Mateo County. At 1450 hours. AFRCC reported a missed pass. Given the vast search area coupled with the missed pass, AFRCC and the Cal OES Law Enforcement Branch (LEB) jointly decided to delay Law Enforcement (LE) response and monitor for additional missed passes. AFRCC will call back if it activates again or when it times out. **Update: 1650 hours:** Per AFRCC, the beacon timed out without additional activations; they are closing their mission. **Mission Closed.**
- **2018-LAW-47241, 06/12/18, 1236 hours:** Mendocino County Sheriff's Office (MCSO) is requesting Search & Rescue (SAR) resources to assist in the search for a missing 35 yr. old male, last seen on 06/09/18 swimming in a Laytonville pond, but wasn't reported missing until 06/11/18 by his girlfriend. Requested resources include a UH72 helicopter with IR, a Dive Team, 40-50 Type II ground searchers, 2 area scent K9's and 2 Water HRD K9's. The CNG approved the UH72 (Lakota), Napa County is providing a Dive Team, the Cal OES LEB K9 Coordinator secured an area K9; Sonoma County is providing several divers, a UTV and an area K9; the following are providing ground searchers: Napa, Solano, Marin, Contra Costa, San Mateo and CALESAR. All resources will be briefed at 0800 hours, Wednesday at the CP, 3000 Branscomb Rd., Laytonville. **Update: 06/13/18, 0731 hours:** MCSO notified LDO the Missing Person surfaced in the pond and was just located. All resources, most of which were at the CP, have been canceled. **Mission Closed.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
